50 YEARS

**AMNESTY
INTERNATIONAL**

**EVERY MOTHER
DESERVES A SAFE
AND HEALTHY
CHILDBIRTH.**

In 2010 Amnesty International released its startling report "Deadly Delivery" detailing maternal mortality both domestically and around the world. The report states that, "women in the United States have a greater lifetime risk of dying in pregnancy-related complications than women in 40 other countries and, African American women are nearly four times more likely to die of pregnancy-related complications than white women."

This Mother's Day we are continuing our fight to reduce these preventable tragedies. U.S. Congressman John Conyers, with our assistance, has introduced a bi-partisan piece of legislation, The Maternal Health Accountability Act of 2011. Join us for a health fair and "A Mother Lost Every 90 Seconds: Maternal Health Accountability Dialogue" to learn more about maternal health and what you can do to make a difference.
